Great chefs have put their trust in Star cooking equipment for good reason. For example, take the Star-Max line, introduced in 1990. Its ruggedly constructed gas and electric griddles, charbroilers, fryers, and hot plates are reliable. You can count on them to deliver heavy-duty performance and excellent results year after year at an incredibly low price. That's why Star-Max is such an outstanding value. But now the Star-Max line is even more valuable to food service operations of all kinds. We've expanded

it with a new line of gas-fired counter top ranges in flat and step-up models and a high-volume stock pot range. We've made improvements to our griddles and charbroilers, too, such as a heavy-gauge, stainless steel bull nose to protect controls and keep heat away from the chef's hands. And, of course, all units are covered by Star's unbeatable one year parts and labor warranty. Call or fax us for free, full color literature on the complete Star-Max line, or contact your Star dealer today.
